### DETAILED ACTION

The dependencies of claims 23-37 and 39-41 have been changed to properly depend upon other claims in light of the cancellation of the claims 1-21.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 22-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 22 sets forth the limitation “no greater than 50%” which varies from the less than 50% as filed. Claim 23 – “an unmodulated voltage signal” was not originally disclosed. Claim 33 – the conductive element on the insulating layer was not originally disclosed. The additional conductive element was on all sides but the face surface.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The reference to “said two pick-up sensors” lacks antecedent basis.

Art Unit: 3739

*Allowable Subject Matter*

Claims 22-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first and second paragraphs, set forth in this Office action.

Claims 38-41 are allowed.

*Reasons for Allowance*

Detailed reasons for allowing the claims over the various references, particularly Hoogendoorn et al, are set forth by applicant in the U.S. priority document 09/505,732.

*Specification*

This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
